Mr. Navecky:

I wanted to include two video clips for inclusion in the public record for Port Canaveral's petition to build a commercial railway across the Banana and Indian River lagoons.

The first is of Port Canaveral chair, Jerry Allender, mocking constituents that are "taking too much of an interest" in port proceedings.

The second is of Port exec. dir. John Walsh referring to opponents of his rail plan as "Luddites" both verbally and in a PowerPoint presentation.

I have provided both links and files... not sure which you will be able to access.

Please confirm receipt.

Thank you.
