To whom it may concern:

YOU **CANNOT** send these train towards

Barrington. I agree with the twenty-plus problems with the DIES. Firstly, emergency vehicles cannot get through. Waiting 20 min. & passing through can determine if someone lives or dies. By sending trains you are indirectly killing these peoples lives. This is 100% unnecessary! If someone dies, its on your watch.

Also, school. It should not take me an hour to get to school on time. My education is very important to me and I will not be getting it if I am late to first hour every day.

Lastly, you are hurting the environment. Our environment is already a concern and these trains will add to the pollution. It is important that the children of our future have a planet to live on.

LOVE, BTOWN TENNIS!!

YOUR INPUT IS IMPORTANT!
