ATTN: Dave Navecky -Docket No. FD35952

Dear Mr. Navecky:

I would like to express my concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952. I oppose the project and ask the Surface Transportation Board to deny the proposal. My concerns are:

that this ridiculous proposal by GLB RR Investments LLC could be seen as nothing but extraneous. The CREATE program is not even half done. The future of air transport cargo hybrid airships is just dawning. Both potentialities make the necessity of a bypass railroad obsolete. Because it is obsolete, it is wasteful to the affected landowners and burdensome with no real benefit to the common good and surely does not warrant eminent domain. We already have railroads here.
