### Transcript:

We are, we oppose the acquisition. There would be a significant delay at the railroad crossings. It already is like 11 minutes when the train comes through at like 8 o'clock in the morning on my way to work and that's, you know, crazy and if we are going to have 42 trains a day that, you know, Plainfield just can not take that kind of congestion, it is already, I mean, the roads are already backed up. It takes, sometimes a half an hour to get, you know, 5 miles across town. Also, you know, if there was ever an ambulance or fire truck that needed to get by and it's, you know, that takes 11 minutes, and if the trains are going to be even longer than they are right now, I can't even imagine how long we'd be sitting at the railroads. You know, there's a lot of people that just drive through on Route 59, Route 30, and Route 126 and it's just really congested already and adding the trains would just back things up even further. So, we would strongly oppose that. If anyone wants to call, the number is 815-577-0890. Thank you
