Dear Board July 5th ~~June 15~~ July 15th

We celebrated the Declaration of Independence yesterday and are determined to maintain our independence! The railroad is not needed and it would be detrimental to all fifteen issues of the board's concerns. CREATE has all ready been established by the Board to relieve the horrendous material problem through Chicago. No community wants the railroad! No farmer wants the railroad. Two of the Class I railroads will not use the railroad and the other four are more committed! There is no economic advantage. This farmer only less yield and more problems!

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
