To whom it may concern:

I am a resident of Aurora, IL and live in the Georgetown Subdivision. I am writing in regard to the E & E Railroad that is a huge concern in many cities, as well. we don't need more trains and we don't want more trains! Thirty trains a day is more than enough! I have severe anxiety disorders and depression. I am on Disability and under doctor's care. I don't move away from the area because I can't afford to. I love the area. There's so much wild life. Mayor Weisner is correct. The rare species of birds will be affected by the added burden of more trains. All the wild life will be affected. we also have so many, many children around here. There's been enough dangers with trains. Trains and people don't mix. Neither do trains and animals. Two teenagers committed and tried to commit suicide last year on Wolf's Crossing Road. the last I heard, one lived. we also have 2 crosses on Ogden Ave. from 2 teenagers many years ago, trying to beat the train. That's why we need less trains, not more trains. I bitterly oppose the sale of the railway to Canada, or any other country. Period. we the people, will bear the brunt of the cost in many ways. Financially, too.

Sincerely,
Saundra Swan
