I would like to express my concern over the Canadian National Railroad wanting to purchase the Elgin, Joliet, and Eastern Railway. The impacts on the community will be unbelievable. The suburbs in Will County will be negatively affected and be in terrible situations when it comes to emergencies, school safety, overall safety, and schedules. We are not just talking about an additional freight train or two coming through a populated area and blocking all major routes for the people, but numerous and only to increase. Please consider the affects on these communities and deny the acquisition.
