Concerning the proposed Acquisition of EJ&E by CN, I believe without a commitment of substantial upgrade to crossings within the affected communities that the acquisition will greatly impact living within these communities. I believe it would be a good business move on the part of CN, but the surrounding communities will not gain any economic benefits. It will only cost us more tax money to lessen the impact to our communities. The increased train traffic and length of trains will affect street traffic by blocking most major East/West thoroughfares through Plainfield. This hindrance will negatively affect people traveling to and from work, emergency vehicles, and hospital access. Without a substantial commitment to improve grade crossings before increasing traffic, I believe that the acquisition is not favorable in my mind.

Thank you,  
Casey Barker
