Address 2					
City	New Lennox	State	IL	Zip	

Transcript:

I am against the railway system going in. I live on the south side of town, it would be impossible getting to and from work when these trains come through. I work jobs where I have to travel back and forth and even in an emergency situation to try to get across town, we're talking all the way on the other side of Frankfurt to get around or all the way in through Joliet to get around which is almost impossible in an emergency situation. Thank you very much.
