Dear David Navecky,

Time is running out to save our farm land. We live on a 4 generation farm (Mission twp Sec 22 ^{La Salle County}) which has been maintained with field tiles, water ways, which would all be destroyed by the proposed 200 ft railway running diagonally through my 340 acre farm. I can not believe a private business would be more important than my private business of feeding the world. I was here first also!! My farm is on Rte 71 so easements & fills would be needed on my fields to build fly over. My farm would be history!!

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.

Praying this will not happen. Barb Bowen
