Message: Gentlemen: So you just want to transfer the rail traffic into several other communnities and place multiple burdens upon them instead of leaving it were it is presently - correct? No, I don,t think so! Have you considered running the majority of the trains through the Chicago inner ring suburbs primarily during very late PM hours, say after 10 PM to 5 AM to reduce traffic congestion & delays. Also, utilize more truck transportation of the unitized containers to move freight - own your own trucking firms. The idea to just shift the rail traffic to other outer communities will create greater vehicle delays and road congestion in the various communities. Do NOT grant approval of the CN to acquire the EJ&E West Company.
Thank you for reading my statement.
