### Transcript:

I would like to voice my support of CN rerouting of the freight traffic on to the EJ&E line. I believe that all the whining from Barrington and their suburbs about having a few more trains--it is really getting old. I believe they should share some of the responsibilities of freight travel like Des Plaines has for years without a lot of complaining and I think it would be more equitable if it was moved to the EJ&E line and traffic would be routed to the outlying areas and it would be advantageous to the City of Chicago. I want to voice my support for the proposed sale.
