Ms. Victoria Rutson
Office of Environmental Analysis
Surface Transportation Bd.
Washington, D. C., 20423

RE: STB, 5.5 MILE RAIL LINE/35802, UNINCORPORATED, LAKE COUNTY

Dear Ms. Rutson

In response to your request, received on Tuesday, July 29, 2014, we have reviewed the documents you submitted regarding your proposed undertaking. Our review of and comment on your proposed undertaking are among the requirements of Section 106 of the National Historic Preservation Act. This Act requires federal agencies or applicant for federal assistance to consult with the appropriate State Historic Preservation Office before they carry out their proposed undertakings. The Advisory Council on Historic Preservation has codified procedures for carrying out Section 106 review in 36 CFR 800. You may wish to familiarize yourself with these procedures (Federal Register, December 12, 2000, pages 77698-77739) if you are unsure about the Section 106 process.

To complete our review of this undertaking, this office will need to receive from you a DETAILED AND CLEARLY MARKED hard copy of a USGS topographic 7.5 minute series 1:24000 map to scale plus the name of the quadrant map indicating the exact location of every specific project activity and a clear project narrative. You may obtain the appropriate USGS maps through the Department of Environment and Conservation, Division of Geology, Maps and Publications Sales Office at (615) 532-1516. Please be sure to give us the name of the quad map.

Upon receipt of the additional information, we will complete our review of this undertaking as expeditiously as possible. Until this office has rendered a final comment on this project, your Section 106 obligation under federal law has not been met. Please inform us if this project is not funded or canceled by the federal agency. Questions and comments may be directed to Joe Garrison (615) 770-1092.

Your cooperation is appreciated.

Sincerely,

E. Patrick McIntyre, Jr.
Executive Director and
State Historic Preservation Officer
