ATTN: Office of Environmental Analysis Docket No. 30186

Please do not build the Tongue River Railroad. I support the 'no action' alternative. We must stop all coal from being produced if we are to avert the most devastating effects of global climate change. We should be shutting down coal in all forms, not building new coal infrastructure. The administration has worked hard to create a new carbon emissions agreement with China and reduce our carbon emissions here at home. Expanding coal production is in direct opposition to these modest, hard-won victories. Halting coal production has the added benefit of avoiding pollution, leaving us cleaner air, cleaner water, and better health. We owe it to our children to leave this coal in the ground.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Michael D. Galvin PhD

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Jean M. Schwinberg

ATTN: Office of Environmental Analysis Docket No. 30186

Coal is the worst of the energy sources and solar and wind the best. Even oil and eventually gas need to stay in the groung but NO coal should ever be used again and certainly infrastructure to move it should never be allowed. If it goes to China people might think that's okay, but the air does NOT stay over China. It gets to us in relatively short order, and the warming of the climate does not depend on where the coal is burned. It needs to stay in the ground! I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mariam shah-Rais

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Laura Dvorak

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Carol A. Gorecki

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mike Farrell
11333 Moorpark St., #509

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

James Tice

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Johanna Y. Meara
1309 Durness Ct.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Elizabeth A. Lamping

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Matthew Drew

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Karolyn Beebe

Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Ellis C Coleman

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Karen McNair

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Bruce Carrubba

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Peter Rutkauskas

Vancouver and Portland have turned down an export of coal from their area, and a fierce fight continues to protect Longview, Washington from such a port. The "filth" that would cover Longview is only one of the reasons local oppose a port. So, no port, no export, no need for a rail line. I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Connie Ball

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Stephanie A Gifford

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Les A Zody

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Peter M. Lambert

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Debra Wills

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Bonnie DesAulnier

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Kathryn H Burns
5781 Los Pacos St.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Ron Malzer

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Jia Hui Lee

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. We get all of the risks, all of the expense, and the benefit? Corporations, not the rest of us, get rich selling polluting coal - to China! Coal that has to be moved using oil, another fossil fuel. This is not a good deal for us and should be stopped.

Sincerely,

Christina M. Cowan

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Trudy Emmons

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. Thank you.

Sincerely,

Michelle Buerger

NO MORE COAL! It's killing us! I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Tina Lieberman-Cohen

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Fredric M. Hefter

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Michael Japack

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Robert Brewer

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Rebecca I Wong

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Dorothy Sanchez

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Caroline Fromson

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Kenneth Millwater

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Deborah Young

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Randi Ross-Quick

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Thomas E Shaw

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Linda A

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Michael Vaupel

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

JEFF SMITH

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Samantha Weintraub

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Howard Labadie

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Katherine A Forrest MD, MPH

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

James Alan Murphy

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Ingrid Wendt Wendt

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

P Johansen

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. It is time for Obama and his EPA which was done to stiffle All American businesse. Think about the mine chemical spell in Colorado which is a disaster. Did Obama charge his puppet EPA to force that horrible spill or mine tailings ?? Not too hard to imagine this.

Sincerely,

Jan K Burket

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Robert P. Bard

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Tracy Mott

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Tris Palmgren

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Roger Harkness

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Peter Leeftink

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Teresa Wheeler

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Carla M G Machado

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Andrew Tirado

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Ruth Mendelson

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Dennis Costanzo

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mary Ellen Ellis

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Shelton stock owner Jenkins

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Del D. Gomes

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Rose Sullivan

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Robert Kingsbury

CREDO Action

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Jim M Berger

Wolcott, NY 14590

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Faith Sillars

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Eric Mandelbaum

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Joan Bathanti

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Arlynne Grearson

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Woody Weaver

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Michael J. Gallagher

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Ron Nickel

ATTN: Office of Environmental Analysis Docket No. 30186

My young children understand that we only have one planet with limited resources- but unlike greedy power companies and their stockholders my children want to help the planet rather than continuing to exploit it, ruining it for future generations. Mr. Peabody's coal train has got to stop hauling large sections of our country away - I am tired of the songs being written only AFTER the damage is done. Not to mention our human responsibility to help China's population find greener energy than this. I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Scott D. Coahran

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

J P

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Carol Green

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Shannon Williams

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Susan N Dunn

there is insufficient consideration of the health risks to the community and to future generations by the construction of the Tongue River Railroad. The Surface Transportation Board must vote to not support it in the name of the health of those along the route and to prevent further attacks on the planet. Remember that your names will be remembered in a grim future of planet devastation, and by your own children and grandchildren as they struggle with the results of climate pollution.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Ernst Bauer

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Carol Thomas

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. This is another subsidy, this environmental damage, for the coal industry, which is now obsolete and must be phased out due to human caused climate change from CO2. Coal is by far the dirtiest and needs to be kept in the ground. President Obama has issued an executive order requiring federal agencies like the US STB to include environmental costs and impacts in its deliberations and its policies. Please follow the law.

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Susan Kaar

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Anita R. Somers

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Lisa Kelsey

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Javier Guerra

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Paul Henninger
