I cannot stress enough how negatively this proposal to increase the trains through our community by 20 will be to the traffic not to mention in back of my house. I have heard this entire idea is because of Mayor Daley's grand plan for the Olympics so they have to redirect lines and rails to make room for construction of the Olympics.

I can't imagine the amount of turmoil 20 plus trains going through any community and the thought of my family viewing and hearing that many trains is a horrible thought not to mention the decrease in our properties value.

Thank you for reading this.
