

Dear Mr Naveckif

We are writing to you concerning the G & B railroad. Rockville Twp. in Kankakee County, Ill. is a farming community with good rich black dirt. This farm ground grows good crops and is very valuable.

Whats gonna happen to the value when the fields are split in half due to a railroad?

The peace and quiet will be gone. I was raised there, my children and my grandchildren are being raised there.

An oil spill can't be ruled out. The good rich black dirt would be ruined.

The farmers will have problems moving the big equipment.

I'm sixty five years old, my Mother is eighty eight years old and we want this farm around to stay

as is. We need your help.  
Please block the GHB  
railroad.

I know the higher ups  
in Monterey, they are only  
looking at one thing and  
that's \$\$ signs. We are  
looking at a farming community  
and a family farm.

Thank you  
Gregg Skoff
