Comments:

We need an Environmental Impact Statement because:

demolition of the structure would have significant adverse impacts on the local community. This is a former industrial property which is likely contaminated. Demolition will release contaminated dust into the community which may be cancer causing or have other serious health impacts. Trucking these materials through the local streets will also have significant adverse health, noise, and vibration impacts to this historically-protected district. The area also has flooding problems and the impact of the removal of this structure is unknown.

*REQUIRED FIELDS

I authorize the Embankment Preservation Coalition to file this comment with the Surface Transportation Board.
