Dear Mr. Navecky:

I would like to express my concerns over the proposed Great Lakes Basin Transportation, LLC rail line project. Docket # 35952. I oppose the project and ask the Surface Transportation Board to deny the proposal. My concerns are:

This railroad will have a major effect to the small local communities. Fire Departments are mostly Volunteer. Who will pay for their training on derailments, fires or major spills? And, township roads will be altered or closed in some instances slowing down response time. If there is a problem, who pays for the clean up? This will also affect our school buses as route will have to be changed when local roads are closed. And, this all costs money - to the tax-payer.

Respectfully Submitted
