Message: By increasing the number of trains from aprox. 14 to 50 per day would due a grave disjustice to our neighborhood. This is concerning the Elgin , Joliet and Eastern Railway. The traffic already has such backups causing my children to be late to school. It is a danger and safety to all the young children in the surrounding neighborhoods. With the massive increase in noise these extras trains would cause, our property values would drop immensly. Is that something we can risk with the market as it is? I don't think so. The trains already wake my children during the night, and that is with only 14. Increas it to 50, and no one will be sleeping.
