

I'm very concerned about emergency vehicles. With approximately 34 trains a day - and some are endless - what recourse do the emergency vehicles have?

Take a drive down Taft Street in Merrillville from 73rd to 61st. The CN crosses Taft just a bit of south of 61st. The crossing has never been taken care of as it should have been. Cars have to really slow down to go across. I don't want Schererville to face this problem.
