Subject: RE: FD 35523: Information Request

The segment from Cinci to Hamilton, OH is the Cincinatti Terminal Subdivision. From Hamilton north to Toledo (via Sidney) is the Toledo Subdivision.

Current daily volumes of road trains (85th percentile at of 3Q 2013):

Indpls – Sidney: 27

LCL Sub: 17

Toledo Sub (Hamilton – Sidney): 28

Cinci Terminal Sub (Cinci – Hamilton): 31 (this incorporates the directional running arrangement with NS. 31 represents the total number of through trains some of which are NS. This is offset by the fact that about the same number of CSXT trains use NS between Cinci and Hamilton.)
