My concerns are the effect the crossings & the increased freight train will have on the safety of students not just @ BHS but on Lake Zurich. There are two crossings @ Lake & Elgin that already affect the surrounding wetlands & community. The increase will cause the constant train horns throughout the day because these crossings have guards but no bells or horns.

The increase traffic will certainly cut off the Barrington community from the planned economic changes that the village have planned.

There will be the increased safety issues within the Barrington village but the effects it will have for some of the tracks which our community of Deer Park have to cross in order to get to.

Last but not least, this area & surrounding communities have long enjoyed the opportunity of living in a beautiful setting that took worked hard to maintain. This may all be sacrificed for the short term goal of politicians. Surely the long-term desires of communities outweigh those who want only a few glory for a short time.

Thank you
