

Please refer to **Docket No. FD 35952** in all correspondence addressed to the Surface Transportation Board. The comment deadline is June 15, 2016.

I am writing as a private citizen and a supporter of our local farming community to go on record and to urge you to not support "The Great Lakes Basin" railroad project from Milton Wisconsin to Michigan City Indiana. This project will be very harmful to the farming communities, it will close many local roads, thus preventing farmers to get to some of their fields, or cutting the fields in half. The railroad will go about a 1/2 mile from my home (I live on the State line), it will be crossing next to the natural gas line pumping station. The crossing will also prevent my son going to his land directly, thus causing many more miles trying to get to the land. Why does "Frank Patton" think he has the right to take other folks land for his benefit, when we will lose our way of living? And what is his real reason for wanting "15,000" acres near Mantero IL? We don't know.
