Environmental Impact Statement

CN | EI&E

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-25-08

Comments must be submitted by September 30, 2008.

I oppose the sale to CN. The noise level, increase in trains is unacceptable. Frankfort, IL will suffer economically and our property values will decrease.

The safety of our children is at stake. 50 to 60 kids cross the tracks near our home where it is not safe to cross on a daily basis. It is inevitable that one of these children will get hit by a train.

With the increase in trains the noise level will increase and traffic will increase at the crossing and there will be long delays.

The acquisition must be stopped!

YOUR INPUT IS IMPORTANT!
