

Sep. 2008

TO:

Surface, Transportation Board:
Mr. Phillis Johnson. Ball.

I'm writing this note because,
our community is concern about CN
acquisition of E5-E rail line.
This impact to our communities, we
oppose to this project for the reasons:

- 1 - We have already congested roads, and
will be delays at the railroad crossings.
- 2 - for safety and emergencies; also will
increase the noise vibrations as well pollution
- 3 - To go to work, schools and other activities
will feel the impact.

Those I and my families and friends will pray
for your decisions will be wise, and think
about us in general all the problems this
will bring.

Thanks for taking care this
problems.
