

Petition to Stop Great Lakes Basin Railroad Docket #35952

Petition Summary	Surface Transportation Board regarding docket #35952, Illinois County Boards and State Representatives, as a concerned citizen in Ogle County, I am opposed to farmland being taken out of production for Great Lakes Basin Transportation's proposed rail lines. I ask you to carefully scrutinize the project and determine if it is in the best interest of your community, as we the undersigned oppose it being allowed to cross privately owned Illinois land. Landowners should not have to bear the burden of disrupted irrigation and drainage, road closings, increased travel time due to increased wait times at grade crossings, emergency responder expenses such as additional training and calls, depreciation of land value and quality of life including noise and light pollution, and disruption of an irreplaceable natural resource rich, fertile, crop soil. Private businesses should not be able to make money off another person's property where property owners are forced to comply through use of eminent domain. Compensation for the land used by a private business venture should not be determined through eminent domain condemnation. It must be fairly negotiated between the landowner and the private business. Landowners should be allowed to say no or negotiate easement contracts voluntarily if the private company wishes to cross their private land.
Action petitioned for	We, the undersigned, are concerned citizens who urge our leaders to act now to STOP THE GREAT LAKES BASIN TRANSPORTATION'S RAIL LINES. DOCKET #35952
