How will CN's proposed acquisition of the EJ&E impact you?

The community of Lake Zurich is split by the EJ&E tracks. Recreation, Schools, Services, Police, Fire and sense of community will all be negatively impacted by the proposed increased activity resulting from the CN acquisition.

The tracks also cross major commute roads causing even longer commutes & road safety.

My business back up to the Elm Road Xing and the impact to my ability to serve and meet customers is of true concern.
