Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

If the rail transportation is increased the traffic congestion in Barrington will be unbearable. There are several times a day that our family travels from one side of town to the other. Plus the school buses and the length of commute will increase. My children are already on the bus for 30-40 minutes each way every day!

One of the crossings is right by the high school where many children walk to & from school. This will increase the danger of children running across the tracks if late for school and in rash judgement. Our community has already lost too many people from train accidents!

YOUR INPUT IS IMPORTANT!
