Transcript:

We're at, we're on the east side of one of the proposed lines, proposed existing train lines that goes through our community and I am registering a negative or a, negative vote for this thing as it will impact us both in, we've got, right now we've got several trains that go by daily and to have 40 some trains go by that would be a little bit overkill. I don't need, we're trying to establish a commercial entity along Route 52, a town center, and I don't think that train will be, one train would be right alongside of that facility, plus we have a park, Four Seasons Park, that's also adjacent to that train and I don't know that that would be a wise thing to have with regard to safety of our children and with regard to the development of our commercial establishment. I'm registering a negative as far as the, being in favor of, I would not be in favor of the Canadian National Railroad coming alongside this facility and through our community. Plus the fact that it would impact our main road that we use to access our community, it crosses over Route 52 and it would impact our access to that, to our community because of the traffic that would be congested at that point, so you have a negative vote as far as the, having the Candian National Railway along that, along that spur. So just my, I'm in opposition to the proposed acquisition, so it's, tha'ts my opinion and that's my vote. So again that's <repeated name and address>.
