Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

Today marks the 42nd anniversary of my marriage to Larry Balle. He could be celebrating at a nice restaurant. However, the situation being presented by CN is more important than our celebration. What CN is proposing will destroy the wonderful life we have enjoyed in Barrington for those 42 years. He met at Barrington High School and remained here to raise our own family. We now have grandchildren going to Barrington schools. The proximity of the RR tracks to Barrington HS is an accident waiting to happen. And when it does happen (and it will) the paramedics most likely will be unable to get the victims to the hospital. Our town is already gridlocked with traffic. It cannot survive additional traffic. How does CN plan to solve this problem? Unless safety and traffic problems can be solved, this sale must not go through. Yes! People should come before profit! Cheryl Balle
