Message:

In reference to STB Finance Docket No. 35087, regarding the sale of the EJ & E Rail Roadroad, I am a concerned citizen asking you to please stop the sale to Canadian National. Safety is the number one reason to consider. Increasing the volume of train traffic by such magnanimous proportions will impede emergency service. Ambulances, fire, and police response will be severely affected, which could result in fatal consequences for citizens. People will die if emergency response time is hindered. We have many children who walk to school, sporting practices, and play in the vicinity of the tracks. The sale will put their lives in jeopardy. We live in a pleasant community. This is not the place to increase train traffic. Please consider the rights of the people. We pay the taxes, and we will be affected the most. Please help our citizens and do not allow this sale to take place.
