Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

CN | EJ&E

Environmental Impact Statement

Date: 8/27/08

Comments must be submitted by September 30, 2008.

These facts can and will affect every person in Barrington. Other towns along the track will also suffer the consequences of this disastrous decision.

Barrington is already overloaded with traffic coming from Cary and Fox River Grove. Hwy 14 and Hough Street are inundated with tons of traffic going to the tollway leading to Chicago. This is a real problem now.

Increasing railroad traffic will add total gridlock to the town of Barrington.

People who live south of the track could die waiting for trains to go by. Injury or heart attack victims apparently don't count anymore.

Fire and police response could be totally cut off by train traffic.

Home values would be drawn down tremendously if this goes through.

Laws pertaining to railroad development in the 14th century, no longer apply to 21st century needs. In the 19th century town development was aided by railroads. In the 21st century railroad development like CN will destroy towns.

Help U.S. citizens to keep what they have worked for all their lives. Help USA.

YOUR INPUT IS IMPORTANT!
