"One Thing we know
which The white man may one day discover-
Our God is The same God.
You may Think now
That you own Him as you wish To own our land.
But you cannot."

Chief Seattle of Suquamish Tribe on signing 1855
Treaty with federal government.

"One Thing farmers know
which hedge fund investors (GLBT) and Federal Gov't
may one day discover
Our fertile food growing land is Limited
and needed for basic survival.
These investors and STB may Think now
on premise of better use To have The right
To Take our land
But failure To protect environment, The people can
only have deleterious effects. What is wrong
is done To failure."

on STB mitigation approval:
Fast approval, as GLBT is pushing,
means the land will be used
ignorantly and foolishly. The
project primary aim is self profits to a few select
"non disclosed" investors. Anything that can not
be open is wrong.
