The Honorable Anne K. Quinlan, Esq.
Acting Secretary
Surface Transportation Board
395 E Street, SW
Washington, DC 20423

Subject: CN Railway Company/EJ&E, STB Finance Docket No. 35087

Dear Secretary Quinlan:

I am writing to express my immense support for CN Railway's proposed acquisition of a large section of the EJ&E line. I have been a resident of Summit Argo for 63 years and during this time, I have had to deal with the effects railway congestion has had on traffic. I live near several railway crossings and witness rail congestion daily. At some of the crossings near my house, roughly 120 car trains pass through, holding up traffic for several minutes. I can recall one time last year where I sat for 30 minutes waiting for a train to cross.

Not only does the railway congestion create traffic, but that traffic often causes further problems on the road. Recently, I was involved in an accident while crossing an intersection; as I was crossing, a car hit me. I believe that it was a combination of the traffic caused by rail congestion and the frustration of waiting for the trains to pass that caused the driver to not be as alert as he would have been.

As you can see, the railway congestion has caused many problems for the residents of the Chicago area. I encourage you to review CN's plan and support their acquisition of a portion of the EJ&E line as it is imperative that something is done to combat this vast problem.

Sincerely,

Judith Pollick
