

Ken Blodgett, Surface Transporter Broad

attention

We have or hear nothing but what the Tongue River Railroad wants.

Well don't we have enough railroads coming through Milk City, Mt.? Why can't they use the ones that are already in Milk City?

The reason is because it goes down hill. Cheaper to operate. Don't need to spend alot of money for fuel or other.

You know your taking alot of land away from farmers and ranchers, who have been here for 100's of years. Its their living. Wake up, use your brain. How do you think your getting your wages paid? We the farmers & ranchers pay.

So stay away from the farmers & ranchers. You are not getting any. You don't pay the taxes. We do OK?!!

Eminent domain should not be used to obtain foreign interest.

Sincerely
Orel and Maynard Basm
Milk City, mt.
