As a busy mother who is driving students AND WORKERS EARLY in the morning AND throughout the day and evening for events, school AND work, I hope our SHARE OF trains going through our community will stay the same amount. We now have about 6 trains going through our neighborhood. If it was to be 28 trains or more, I think that would put a real bottleneck effect on New Lenox and all the surrounding communities and a rippling effect farther out, too! My neighbors, as well as myself, cut their time for driving to a minimum and they (and I) don't give plenty of time for traveling. So many more trains for us to stop AND wait would make everything late - school, work, sports activities AND evening classes of all kinds. Please keep our moving trains to a minimum (6) so we can stay well-moving community. Thank you for listening!
