I would like to say that I support the building of the Tongue River Railroad. I watched the meeting on the TRR for about 25 to 30 years and it appears to me that most concerns about the TRR have been addressed. The short route from Ashland to Colstrip may be the shortest and best route and cause the least environmental impacts.

NOTE: When an individual chooses to submit an environmental comment or some other submission, his or her personal contact information is considered public information and is shared within and outside of the Board without additional authorization.
