Message:

I am a Plainfield resident and I oppose the CN acquisition of EJ&E railraod. Congestion is an on going issue in the western communities. And to add more than 30 additional trains daily will make the traffic even worse. All of the communities that will benefit from this sale are glad to see there train traffic decrease in their communities. They will be happy that this is another towns problem. Also, what about the home values taht are along the railroads? Will the home prices decrease due to train traffic and noise of an additional 30 trains daily? Say NO to this sale!
