Washington, DC 20423-0001

RE: STB Finance Docket Number 35087
Complaint Regarding Noise on Canadian National Rail Line in Frankfort, Illinois

Dear Sir or Madam,

Recently, the Office of the Illinois Attorney General received a written complaint from an Illinois citizen who resides in Frankfort, Illinois. The resident, Daniel McCormick, complained of excessive noise and rail traffic along the Canadian National rail line. Mr. McCormick stated that on April 6, 2010, between the hours of 1 a.m. and 2 a.m., eight trains passed through Frankfort, each blowing train whistles.

As the Surface Transportation Board continues to oversee and monitor CN rail traffic along the former EJ&E line, I felt that passing along this citizen's complaint could serve to notify the board of this particular issue in Frankfort. Mr. McCormick's contact information is as follows:

Mr. Daniel McCormick
675 Fairway Lane
Frankfort, IL 60423

Please feel free to contact me with any questions you may have.

Sincerely,

Vanessa C. Horton
Assistant Attorney General
