Transcript:

Hi, I'm calling because I am very concerned about the Canadian National Railway Corporation. I firmly oppose that this extension be given because of the significant impact this would have in my community and my district. I oppose this proposed acquisition because I think it will provide additional vehicle delays at railroad crossings which there happens to be one right by Essington and Dan Ireland Drive. The safety of the crossing especially during emergency responses and vehicles trying to get through and also because it will impact our commute to activities and to and from school and I strongly oppose this. If you have questions, please call me at 815-836-5475. Thank you.
