All,

Thank you for participating in the conference call/meeting last Monday to discuss the final implementation plan. Per our discussion, the revised final plan now has a new Table 1, Summary of Mitigation Measures (see Pages 2 and 3). There are other minor changes throughout the document. Please review the table and final changes by Friday, Nov. 9, so we can send out the final document.

Let me know if you have any questions. Thanks, Barb

Barb,

Here are comments from OEA regarding the Implementation Plan. See attached. If we don't connect today regarding our comments, let me know when would be a good time.
