Scoping Comment for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Comment Form

How Do I Submit Comments?

02581.02308. WEAVER.DOT. 60502. O. N. OF

- **Written Comments:** Complete and submit this form at the public open house scoping meeting, or follow the directions on the reverse side of this sheet to mail your comments.
- **Recorded Comments:** Provide your comments to a member of the project team or court reporter at this public open house scoping meeting, or call the toll-free project information line: 1-800-347-0689.
- **Electronic Comments:** Submit electronic comments by visiting the Surface Transportation Board's website, www.stb.dot.gov, under the heading "E-Filing."

Please refer to STB Finance Docket No. 35087 in all correspondence addressed to the Surface Transportation Board. Comments must be submitted by February 1, 2008.

1. Can't we stop the sale????

2. If we can't stop the sale, and we didn't ask for more trains, why should we have to pay for anything??? Therefore, I feel that any and all repairs, improvements, overpasses, guardrails etc... are the responsibility of Canadian national Railroad, and goverment. Why is always 'the people's" responsibility to foot the bill? If I were buying a business, I would not expect Aurora to pick-up the bill.

And my taxes are high enough!!!!!!!!!!!!

emergency vehicles can't be sitting at a crossing waiting for God only knows how many car to pass. 15 to 45 more trains a day. How many cars will make up these 15 to 45 more trains? 50, 75, 100 or more?

To make matters worse, just stated on TV, trains can't block and intersection for more than "10 ninutes". Try telling a woman in labor that "she just has to wait until the train passes" or someone who has just had a stroke or heart attach and getting to the hospital quickly will save their lives. What if it's you in that ambulance?

where I lived in Wisconsin, there were many intersections without guardrails and all to often fatalities. the noise and vibration could be felt for miles. We all know that noise travels further at night which will disrupt our sleep.
