I think this rail line and rock quarry for Medina County to create jobs and create a recharge zone for the Aquifer. I am an irrigation farmer in the Tera County and pump water from the Edwards Aquifer and I feel like this recharge will be good for San Antonio and all surrounding cities. I also own a ranch with the same limestone as the proposed rock quarry which is three miles east. Location is circled on this map. The headwaters of the Quiki Creek is on this ranch.

Thank you for your comments.
