I am very much against the CN railroads acquisition to buy the EJ&E railroad. I think with the economic and environmental impact it would have on my community it would be devastating to our town!! They would be carrying hazardous wastes right next door to our backyards and my grandchildren's schools. I live in Barrington now along with a lot of my children and grandchildren. I have lived in the area for over twenty years. We are all very concerned that this will completely bring down the value of our homes. All this congestion and traffic along with the safety issues will not help this community what so ever. I feel that no one will want to live in Barrington or have a business anymore with all the noise, pollution, and traffic caused by these trains. What a great inconvenience and safety concern this community would be burdened with. **Please fight against the CN railroad!** The taxpayers should not be forced to pay the bill for this billion dollar annual profit company to fix the grade separation infrastructure to do what it wants with this railroad. Please don't let this foreign corporation do this to our community. **Please oppose this acquisition and fight for the town of Barrington.**

Sincerely,

Lillian Casey
