Port MacKenzie Rail Extension Project
Environmental Impact Statement

COMMENT FORM

Your input is an important element in the Draft Environmental Impact Statement phase of this project. To help us incorporate your views and suggestions, please provide your comments below and mail them to the address preprinted on the back of this form. Please write legibly. You may attach additional sheets if necessary. Alternatively, you may submit your comments online at STB's Web site (<http://www.stb.dot.gov/>) by clicking on "E-Filing" and selecting "Environmental Comments" or by mailing a comment letter to the address provided on the back of this form.

Please include your name and address so that we can add you to our mailing list if you would like to receive subsequent information on the project. Thank you for taking the time to provide us with your comments.

What comments do you have about the Draft Environmental Impact Statement?

My family owns real property south of the Beluga Interie Abutting the Susitna Flats Game Refuge. When the state developed the Pt Mac Agricultural Project it interrupted access to our homestead along the seismic line nearest our property. The state or Borough eventually extended the Port Access Road allowing use of the Interie Right of Way from the Teeland Sub-Station. When the Borough

paved the Port Access Road it occupied the parking lot we used and made our existing trail/winter road unusable. Chugach Electric Association put in a new trail/winter trail allowing access. How do we intend to allow access from the "winter trail" head to the south and west? Will there be an access/crossing near the port? How will we connect with existing trails. Pt Mac is a cow/calf moose rearing area. Historically, moose from as far away as Mt Subitna traveled to from Pt Mac in the spring and fall. How are you planning to allow moose travel? A sign explaining how many have been killed thus winter is not an acceptable means of mitigation.
