Subject NRE: Voluntary Mitigation Measure Modification

Dear Dave,

On behalf of the Alaska Railroad Corporation, this is to request a modification of language concerning voluntary mitigation measure number 63 from the DEIS for the Northern Rail Extension Project. ARRC would like to replace that measure with the following language:

"Before the start of operations, the Applicant shall provide information such as emergency contact numbers, access points, plans for operations and the location(s) of emergency equipment in order that local, state and federal agencies may incorporate that information into local response plans as may be needed."

Please let me know if you have any questions.

Sincerely,

Kathryn
