#E1-2084

Dear Mrs Johnson-Ball:

As Hoburn residents we are opposed to the transrail site to be located in Wilmington, near the Hoburn line. Hoburn has already ^{had} contamination problems with lives lost to serious illnesses. We don't want to invite any more problems.

The areas surrounding the property being considered, are heavily populated with residences, and the dangers are all too real. We ourselves live approximately 3 miles from this site.

Please do not allow this to happen.

Sincerely,

Al and Mary Wilde
