 Message:

I have read about the purchase of the EJ&E railroad and the increased railway traffic. I have very strong concerns about significantly increased railway traffic for two reasons - one the delays in getting places in Naperville. And second, the safety and noise concerns, especially for those high schoolers (new drivers) who would have to pass the tracks on a regular basis.

We live in North Naperville and "getting stuck behind a train" can create problems for us when going around town. Currently the number of trains isn't too bad but I understand it might triple! That would be a big concern for traffic hold ups. I also understand the train traffic would affect the high school. Given the number of new drivers around that area that is of concern. Since new drivers have the most accidents, having to contend with lots of railway traffic is a safety concern.

I would like to see the railway sold to a party that does NOT intend to create a substantial increase in railway traffic.

Thanks for listening,
 Karen
