Please refer to Docket No. FD 35952 in all correspondence addressed to the Surface Transportation Board. The comment deadline is June 15, 2016.

I have agricultural land in a very productive area of Grundy County. The proposed railway is planned to cut through this horizontal tract diagonally from northwest to southeast creating two triangles - the back one being landlocked. This is unconscionable!! Imagine the loss of farm land; today's large equipment maneuvering those short rows; damage to tile lines, etc., etc.

The farm is operated by the 4th generation of the family.

There must be a better way.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
