Transcript:

I am calling to indicate my opposition to this proposed merger between CN and the EJ& E. I feel it's going to have a significant impact on the quality of life in our area. The number of trains, the length of the train, which I understand can be as much as perhaps 2 miles long, the duration for which the crossings will be impacted and land travel won't be possible as well as the significant environmental impact of having the trains roll through the area and emissions and so on and in addition the potential for problems with emergency vehicles being able to cross. We have a huge number of road grade crossings and it would be a significant impact. Thank you very much. Please vote no on this proposed merger.
